Volume 27, 1989

International Journal of Production Research

Editor

Professor Roy J. Sury, Ph.D., C.Eng.
Department of Manufacturing Engineering, Loughborough University of Technology
Leicestershire LE11 3TU, U.K.

Associate Editor

John E. Middle, M.Sc., C. Eng.
Department of Manufacturing Engineering
Loughborough University of Technology

Reviews Editor

Geoffrey F. Modlen, Ph.D., C.Eng.
Department of Manufacturing Engineering
Loughborough University of Technology

Editorial Board

Australia:	Dr. B. W. Jenney, Chisholm Institute of Technology, Victoria.
Canada:	Professor A. K. S. Jardine, University of Toronto.
	Professor M. Osman, Concordia University, Quebec.
Denmark:	Professor C. H. Gudnason, Danmarks Tekniske, Højskole, København.
France:	Professor G. Doumeingts, University of Bordeaux.
F.R. Germany:	Professor Dr.-Ing. H. Bullinger, Fraunhofer-IAO, Stuttgart.
	Professor Dr.-Ing. W. Laurig, Institut fur Arbeitsphysiologie, Dortmund.
	Professor Dr.-Ing. H. J. Warnecke, Fraunhofer-IPA, Stuttgart.
Hong Kong:	Professor N. N. S. Chen, University of Hong Kong.
Holland:	Professor W. Bakker, Twente University of Technology, Enschede.
Hungary:	Professor Dr. F. J. Lettner, Budapest Müszaki Egyetem, Gépipari Technológiai Tanszék, Budapest IX.
India:	Professor N. K. Tewari, Indian Institute of Technology, New Delhi.
Israel:	Professor E. Dar-El, Technion-Israel Institute of Technology, Haifa.
Japan:	Professor Y. Furukawa, Tokyo Metropolitan University, Tokyo.
	Professor K. Hitomi, P. E., Kyoto University/Beijing Institute of Technology· Southwestern Jiaotong University (China).
	Professor R. Muramatsu, Waseda University, Tokyo 160.
Singapore:	Professor S. K. Leung, Nanyang Technological Institute.
Sweden:	Professor S. Axsäter, Luleå University of Technology.
United Kingdom:	Professor R. Bell, Loughborough University of Technology.
	Professor J. Burbidge, Cranfield Institute of Technology, Bedford.
	Professor E. N. Corlett, University of Nottingham.
	Professor J. Parnaby, Lucas Industries, Solihull.
U.S.A.:	Professor G. Boothroyd, University of Massachusetts, Amherst.
	Professor N. Gaither, Texas A & M University, College Station.
	Dr. S. B. Gershwin, Massachusetts Institute of Technology, Cambridge.
	Professor K. Knott, The Pennsylvania State University.
	Professor E. Koenigsberg, University of California, Berkeley.
	Professor A. Kusiak, The University of Iowa.
	Professor A. Mital, University of Cincinnati, Ohio.
	Professor C. Moodie, Purdue University, West Lafayette, Indiana.
Yugoslavia:	Professor D. Zelenović, University of Novi Sad.
Founding Editor:	Professor N. A. Dudley.

Subscription Information

International Journal of Production Research (ISSN 0020-7543) is published monthly by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK.

Annual Subscription 1990 £328, US$590.

Personal subscription 1990 to members of the Institution of Production Engineers: £50, US$104. Personal subscriptions must be paid by personal cheque or credit card.

Second class postage paid at Jamaica, New York 11431. USA Postmasters: Send address changes to *International Journal of Production Research*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003. Air freight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

Printed in UK by Taylor & Francis (Printers) Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR, UK. The paper used in this publication is 'acid free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributor. **Australia:** R. Hill & Son Ltd, 117 Wellington Street, Windsor, Victoria 3181. **New Zealand:** R. Hill & Son Ltd, Private Bag, Newmarket, Auckland 1. **India:** Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017. **Japan:** Kinokuniya Company Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156. **USA, Canada and Mexico:** Taylor & Francis, Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007. **UK and all other territories:** Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR.

VOLUME 27, 1989—CONTENTS

No. 1 January 1989

PAGE

A throughput-maximizing facility planning and layout model. H. Co, A. Wu and A. Reisman 1

Control limits for a drifting process with quadratic loss. Z. Drezner and G. O. Wesolowsky 13

Determination of optimum processing conditions for injection moulding. P. Dewhurst and D. Kuppurajan 21

An expediting heuristic for the shortest processing time dispatching rule. C. R. Schultz 31

Local and integral control of workload. R. de Koster and J. Wijngaard 43

An integrative theory of strategic quality management: a cost–benefit framework for evaluating quality improvement programs. J. G. Wacker 53

Impact of parallel processing on job sequences in flexible assembly systems. N. Udomkesmalee and C. F. Daganzo 73

Virtual flow paths for free-ranging automated guided vehicle systems. R. J. Gaskins, J. M. A. Tanchoco and F. Taghaboni 91

EXPIM: a knowledge-based expert system for production/inventory modelling. M. Parlar 101

Optimum allocation of resources between the random access and rack storage spaces in an automated warehousing system. F. Azadivar 119

A methodology for the economic comparison of $\bar{X}$, cumulative sum, and geometric moving-average control charts. C. Nantawong, S. U. Randhawa and E. D. McDowell 133

Optimal design of BTA deep-hole cutting tools with staggered cutters. V. N. Latinovic and M. O. M. Osman 153

A methodology for the selection of assembly systems. A. Shtub and E. M. Dar-El 175

Multi-performance measures for better operational control. S. Globerson and J. L. Riggs 187

Book reviews 195

No. 2 February 1989

Final assembly sequencing for just-in-time manufacturing. H. Groeflin, H. Luss, M. B. Rosenwein and E. T. Wahls 199

PAGE

Flexible assembly systems: test results for an approach for near real-time scheduling and routing of multiple products. M. DONATH and R. J. GRAVES 215

Workpiece–fixture interactions in a compacted fluidized-bed fixture under various loading conditions. B. S. THOMPSON, M. V. GANDHI and D. J. DESAI 229

Effects of alternate routings under variable lot-size conditions. T. M. HANCOCK 247

Multiple projects–multiple resources-constrained scheduling: some studies. R. P. MOHANTY and M. K. SIDDIQ 261

A framework for quantitative comparison of production control concepts. H. GRÜNWALD, P. E. T. STRIEKWOLD and P. J. WEEDA 281

A heuristic algorithm for the quadratic assignment formulation to the plant layout problem. B. GOLANY and M. J. ROSENBLATT 293

A system dynamics model for a multi-stage multi-line dual-card JIT-kanban system. Y. P. GUPTA and M. C. GUPTA 309

The use of value-based priorities when early shipments are forbidden. G. D. SCUDDER and T. R. HOFFMANN 353

Book reviews. 371

No. 3 March 1989

Guest Editorial 373

Design and control of a high-speed direct-drive manipulator. K. YOUCEF-TOUMI and A. T. Y. KUO 375

Universal machine control system primitives for modular distributed manipulator systems. R. H. WESTON, R. HARRISON, A. H. BOOTH and P. R. MOORE 395

The development of autonomous devices to aid component assembly. C. J. BLAND, S. H. HOPKINS and P. J. DRAZAN 411

Self-tuning control of a robot manipulator arm. W. WAHAB and P. E. WELLSTEAD 423

Trajectory control in the world coordinate system by an adaptive forecasting algorithm. S. H. LEE, K. F. EMAN and S. M. WU 451

The human–robot interface: the role of artificial intelligence. C. J. HINDE 463

Operational characteristics of multi-robot systems with cooperation. S. Y. NOF and D. HANNA 477

An integrated control and error interpretation system for collaborating robots. G. T. RUSSELL, J. T. HERD, N. D. DUFFY, J. B. C. DAVIES and W. J. FINLAY 493

Robot integration within computer-integrated manufacture. R. H. WESTON, J. D. GASCOIGNE, C. M. SUMPTER and A. HODGSON 515

The complexity of introducing robotics: lessons drawn from an industrial experience. H. MOLET, J. C. SAUTORY and J. P. VAN GIGCH 529

Book Reviews 549

No. 4 April 1989 PAGE

Computer Aided Process Planning: the state-of-the-art survey. L. ALTING and H. C. ZHANG ... 553

A multi-objective two-stage approach to the design of communication networks subject to production constraints for computerized manufacturing systems. T. GUPTA and B. K. GHOSH ... 587

An evaluation of approaches to modelling and simulating manufacturing systems. N. N. EKERE and R. G. HANNAM ... 599

Hierarchical production planning for a modern steel manufacturing system. C.-W. LIN and C. L. MOODIE ... 613

Production control with variable speeds and inspection points. D. I. GOLENKO-GINZBURG and Z. SINUANY-STERN ... 629

A comprehensive literature review and analysis of the design, balancing and scheduling of assembly systems. S. GHOSH and R. J. GAGNON ... 637

The effects of product structure and sequencing rule on assembly shop performance. T. D. FRY, M. D. OLIFF, E. D. MINOR and G. K. LEONG 671

Iterative algorithms for estimating the capacity of automated production lines with finite buffers. P. K. JOHRI ... 687

Flow control in flexible manufacturing: minimization of stockout cost. M.-H. HAN and L. F. MCGINNIS ... 701

On the efficiency of unbalancing production lines. K. C. SO ... 717

Book reviews ... 731

Corrigendum ... 733

Erratum ... 734

No. 5 May 1989

Measuring the economic effectiveness of flexible automation: a new approach. G. AZZONE and U. BERTELÈ ... 735

On measures of flexibility in manufacturing systems. P. H. BRILL and M. MANDELBAUM ... 747

A heuristic approach to the three-dimensional cargo-loading problem. C. P. HAN, K. KNOTT and P. J. EGBELU ... 757

Modelling group technology cell formation as a generalized assignment problem. A. SHTUB ... 775

Manufacturing systems with forbidden early shipment: Implications for setting manufacturing lead times. J. J. KANET and D. P. CHRISTY ... 783

An expert system using priorities for solving multiple-criteria facility layout problems. B. MALAKOOTI and A. TSURUSHIMA ... 793

Optimal forecast biasing in theoretical inventory models. T. S. LEE and W. SHIH ... 809

PAGE

Low-inventory ordering systems for the international co-operative knockdown production systems. S. HIRAKI, T. ICHIMURA, K. ISHII, T. NAGAMURA, Y. ANDO, K. TAKAHASHI and R. MURAMATSU 831

Machine planning: its role in the generation of manufacturing code from solid model descriptions. R. BELL and R. I. M. YOUNG 847

Knowledge-based scheduling under unpredicted conditions: two approaches. D. BEN-ARIEH, C. L. MOODIE and C.-C. CHU 869

On the refinement of the variable lead time/constant demand lot-sizing model: the effect of true average inventory level on the traditional solution. T. S. LEE, E. M. MALSTROM, S. B. VARDEMAN and V. P. PETERSEN ... 883

Book Reviews 901

No. 6 June 1989

JIT vs. WIP—a trade-off analysis. D. SIPPER and R. SHAPIRA 903

AGVSim2–a development tool for AGVS controller design. R. J. GASKINS and J. M. A. TANCHOCO 915

EXIT: a PC-based expert system for industrial truck selection. C. J. MALMBORG, B. KRISHNAKUMAR, G. R. SIMONS and M. H. AGFE 927

The periodic routeing of a flexible manufacturing system with centralized in-process inventory flows. J. J. LIU 943

Electrochemical cutting using tubular cathodes: response surface approach. M. S. HEWIDY and M. FATTOUH 953

MRP lot sizing with variable production/purchasing costs: formulation and solution. E. L. PRENTIS and B. M. KHUMAWALA 965

Modelling of three-dimensional warehouse systems. Y. H. PARK and D. B. WEBSTER 985

Assembly line balancing with parallel workstations and dead time. J. F. BARD 1005

Some solution methodologies for loading problems in flexible manufacturing system. K. SHANKER and A. SRINIVASULU 1019

GROUPABILITY: an analysis of the properties of binary data matrices for group technology. M. P. CHANDRASEKHARAN and R. RAJAGOPALAN ... 1035

No. 7 July 1989

A proposed shop management system for the engineering industry. R. HAUPT 1053

A comparison of inventory cost reduction strategies in a JIT manufacturing system. J. L. FUNK 1065

Order review/release: research issues and perspectives. S. A. MELNYK and G. L. RAGATZ 1086

PAGE

Order batching algorithms and travel-time estimation for automated storage/retrieval systems. E. A. ELSAYED and O. I. UNAL 1097

Evaluating the impact of operating environments on MRP system nervousness. C.-J. HO 1115

Design and scheduling for flexible manufacturing cells with automatic set-up equipment. K. HITOMI, M. YOSHIMURA and K. OHASHI 1137

On converting a dual graph into a block layout. M. M. D. HASSAN and G. L. HOGG 1149

A note on the similarity coefficient method and the problem of improper machine assignment in group technology applications. H. SEIFODDINI ... 1161

Optimal buffer space size in two-stage machining systems with Markovian or non-Markovian tool life processes. C. P. KOULAMAS 1167

Modelling realism in aggregate planning: a goal-search approach. V. GILGEOUS 1179

Investigations on the through-feed centreless grinding process. S. S. PANDE and B. R. LANKA 1195

Assessment of the economic feasibility of robotic assembly while conveyor tracking (RACT). L. L. ABDEL-MALEK 1209

Multiple objective facility layout: heuristic to generate efficient alternatives. B. MALAKOOTI 1225

Announcement 1239

No. 8 August 1989

Integrated optimization of machine product design and process design. M. YOSHIMURA, K. ITANI and K. HITOMI, P. E. 1241

Real-time tool control and job dispatching in flexible manufacturing systems. MIN-HONG HAN, YOON K. NA and G. L. HOGG 1257

Economic design of an attributes control system for a multistage serial production process. W. W. WILLIAMS and M. H. PETERS 1269

Group technology in the US manufacturing industry: a survey of current practices. N. L. HYER and U. WEMMERLÖV 1287

A mathematical model for loading the sequencers in a printed circuit pack manufacturing environment. Y. FATHI and J. TAHERI 1305

The effect of batch sizing and customer pressure (order modification) on a hybrid assembly job shop. N. SAWAQED and B. L. FOOTE 1317

Theoretical and experimental investigation of electrochemical ballizing. M. S. HEWIDY, K. P. RAJURKAR, G. F. ROYO and M. FATTOUH 1335

Modelling and solving an FMS part selection problem. S. S. HWAN and A. W. SHOGAN 1349

Optimal inventory control in a production flow system with failures. W. J. HOPP, N. PATI and P. C. JONES 1367

PAGE

Parametric design and manufacture of transfer port cores for experimental cylinder block castings. J. McCartney and R. Kenny 1385

An alternative formulation of the operation-allocation problem in flexible manufacturing systems. J. M. Wilson 1405

Synchronized manufacturing at final assembly and feeder shops. H. Luss 1413

A comparative analysis of an MRP lot-for-lot system and a Kanban system for a multistage production operation. L. P. Rees, P. Y. Huang and B. W. Taylor III 1427

No. 9 September 1989

Condition monitoring of machine tools. C. G. Harris, J. H. Williams and A. Davies 1445

Machine grouping problem in cellular manufacturing systems—an integer programming approach. K. R. Gunasingh and R. S. Lashkari ... 1465

Optimal pickup point location on material handling networks. A. S. Kiran and B. C. Tansel 1475

Scheduling mixed-model multi-level just-in-time production systems. J. Miltenburg and G. Sinnamon 1487

Cellular manufacturing in the U.S. industry: a survey of users. U. Wemmerlöv and N. L. Hyer 1511

Tolerance chart optimization. S. A. Irani, R. O. Mittal and E. A. Lehtihet 1531

Sequence selection of stock sheets in two-dimensional layout problems. Weishuang Qu and J. L. Sanders 1553

The optimal subdivision of cut in multi-pass machining operations. I. Yellowley and E. A. Gunn 1573

Design of class-based storage racks for minimizing travel time in a three-dimensional storage system. Y. H. Park and D. B. Webster 1589

An application of discrete-event simulation to on-line control and scheduling in flexible manufacturing. Szu-Yung D. Wu and R. A. Wysk 1603

Optimal selection of the local storage sizes of an assembly system. B. Pourbabai 1625

Part family formation for GT applications based on fuzzy mathematics. Haiping Xu and Hsu-Pin (Ben) Wang 1637

No. 10 October 1989

Determining learning curves in group technology settings. S. Globerson and R. Millen 1653

An intelligent assistant for manufacturing system simulation. B. J. Schroer and F. T. Tseng 1665

PAGE

Analysis of optimal machining speeds for automatic manufacturing. K. HITOMI 1685

Determining the size of a warehouse container. Y. ROLL, M. J. ROSENBLATT and D. KADOSH 1693

Two allocation methods for buffer storage in split automatic transfer lines. T. IYAMA and T. ODAWARA 1705

The performance of push and pull systems: a simulation and comparative study. B. R. SARKER and J. A. FITZSIMMONS 1715

A practical approach to scheduling a multistage, multiprocessor flow-shop problem. J. D. YANNEY and W. KUO 1733

Computer-aided quality in fibre-cement pipe production. A. A. ELIMAM ... 1743

ECM-abrasive polishing of metals. S. C. TAM, N. H. LOH and S. MIYAZAWA 1757

A simulation study of part sequencing in a flexible assembly cell. A. M. EL-TAMIMI, S. M. A. SULIMAN and D. F. WILLIAMS... 1769

Group set-up for printed circuit board assembly. T. F. CARMON, O. Z. MAIMON and E. M. DAR-EL 1795

An experiment investigating the application of clustering procedures and similarity coefficients to the GT machine cell formation problem. C. T. MOSIER 1811

IC insertion: an application of the travelling salesman problem. D. CHAN and D. MERCIER 1837

No. 11 November 1989

Shop operating characteristics curves for shop control. MIN-HONG HAN and L. F. MCGINNIS 1843

An investigation of knowledge-based models for automated procedure generation in the arc welding domain. A. TAYLOR 1855

The production switching heuristic: A practical revision. S. BARMAN and E. E. BURCH 1863

Inventory replenishment rules for systems exhibiting 'on–off' stochastic demand patterns. R. M. BROWN and J. P. MATTHEWS 1877

Types of flexibility in a single-machine production system. E. TAYMAZ ... 1891

Improved network based algorithms for the assembly line balancing problem. F. EASTON, B. FAALAND, T. D. KLASTORIN and T. SCHMITT ... 1901

Optimal injection velocity profiling. CHAO OU-YANG and G. P. MAUL ... 1917

Implementing a loading heuristic in a discrete release job shop. P. M. BOBROWSKI 1935

A bottleneck-based beam search for job scheduling in a flexible manufacturing system. YIH-LONG CHANG, H. MATSUO and R. S. SULLIVAN 1949

PAGE

Performance evaluation of flexible manufacturing systems with blocking. H. TEMPELMEIER, H. KUHN and U. TETZLAFF 1963

A multi-objective production planning model in a flexible manufacturing environment. S. M. LEE and H.-J. JUNG 1981

No. 12 December 1989

Just-In-Time supplier inventory: an empirical implementation model. S. N. CHAPMAN 1993

Critical machines preventive maintenance policies for group technology shops. B. B. FLYNN 2009

Shelf life considerations in a family production context. E. A. SILVER ... 2021

Computerization of tool-replacement decision making in flexible manufacturing systems: a human-systems perspective. J. SHARIT and S. ELHENCE 2027

A heuristic approach to the formulation of manufacturing strategy. R. C. BARKER and N. K. POWELL 2041

Commonality analysis: A linear cell clustering algorithm for group technology. J. C. WEI and G. M. KERN 2053

A combined heuristic approach to dynamic lot sizing problems. A. S. KIRAN 2063

A model for capacity planning of flexible robotic assembly systems. T. K. DAS, M.-H. HAN and A. J. G. BABU 2075

A hierarchical structure for form features. N. N. Z. GINDY 2089

Predicting the performance of unpaced assembly lines where one station variability may be smaller than the others. E. M. DAR-EL and A. MAZER 2105

List of Referees 1988/9 2117

Index of Authors (with titles) 2123
